## **You're Invited**

The ArrowCreek Homeowners Association's Communications Committee invites you to attend the first in a series of informational neighborhood meetings and to ask for your comments and answer your questions. These informational meetings will be designed to provide information to community members with a focus on current topics of common interest.

### **Current Status:**

This input will assist the ACHOA Board in the developing community based social and recreational programming for the coming years. This meeting will set the stage for budget planning and related future activities of the organization.

### **Meeting One: Results of the first ever ArrowCreek Community Demographic Study.**

The ACHOA Communications Committee with ACHOA Board approval commissioned a research project through The University of Nevada Economics Department by Professor Mark Pringle and Graduate Research Associate Cameron Belt. A first ever demographics study of ArrowCreek homeowners, i.e. who lives here and what are their interests was conducted. The results of this study will be presented at this Informational Meeting by Professor Pingle and Mr. Belt. Please come and listen to their presentation and commentary. A copy of the survey results will be provided at the meeting for your records. This should be an interesting exchange of information about the ACHOA community.

### **Format for the meeting:**

Professor Pringle and Mr. Belt will present the results of their two part research project for 30-45 minutes. Following their presentation will be an open discussion for 45-60 minutes and include comments from homeowners. **The meeting will be held at The Club at ArrowCreek.**

These informational meetings are intended to give you and your neighbors the opportunity to provide input to your ACHOA Board before any balloting or decisions are made.

**Meeting Date: Tuesday May 19.**

**Time: 5:30 PM**
